A Revolution of the Mind: Radical Enlightenment and the Intellectual Origins of Modern Democracy Jonathan Israel

Democracy, free thought and expression, religious tolerance, individual liberty, political self-determination of peoples, sexual and racial equality--these values have firmly entered the mainstream in the decades since they were enshrined in the 1948 U.N. Declaration of Human Rights. But if these ideals no longer seem radical today, their origin was very radical indeed--far more so than most historians have been willing to recognize. In *A Revolution of the Mind*, Jonathan Israel, one of the world's leading historians of the Enlightenment, traces the philosophical roots of these ideas to what were the least respectable strata of Enlightenment thought--what he calls the Radical Enlightenment.

Originating as a clandestine movement of ideas that was almost entirely hidden from public view during its earliest phase, the Radical Enlightenment matured in opposition to the moderate mainstream Enlightenment dominant in Europe and America in the eighteenth century. During the revolutionary decades of the 1770s, 1780s, and 1790s, the Radical Enlightenment burst into the open, only to provoke a long and bitter backlash. *A Revolution of the Mind* shows that this vigorous opposition was mainly due to the powerful impulses in society to defend the principles of monarchy, aristocracy, empire, and racial hierarchy--principles linked to the upholding of censorship, church authority, social inequality, racial segregation, religious discrimination, and far-reaching privilege for ruling groups.

In telling this fascinating history, *A Revolution of the Mind* reveals the surprising origin of our most cherished values--and helps explain why in certain circles they are frequently disapproved of and attacked even today.

Margaret Head:

Nowadays reading books are more than want or need but also turn into a life style. This reading routine give you lot of advantages. Advantages you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The data you get based on what kind of publication you read, if you want get more knowledge just go with training books but if you want feel happy read one using theme for entertaining like comic or novel. The A Revolution of the Mind: Radical Enlightenment and the Intellectual Origins of Modern Democracy is kind of guide which is giving the reader erratic experience.

Bernadine Parker:

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the library or to make summary for some publication, they are complained. Just small students that has reading's heart or real their interest. They just do what the trainer want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that examining is not important, boring as well as can't see colorful pics on there. Yeah, it is being complicated. Book is very important for yourself. As we

know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this A Revolution of the Mind: Radical Enlightenment and the Intellectual Origins of Modern Democracy can make you sense more interested to read.
