Grover Park George on Access: Unleash the Power of Access (On Office series) George Hepworth

A textbook and study guide for new and intermediate Microsoft Access users, this book takes Access developers through the development process step by step. Terms and concepts are explained as they arise and relevant examples are provided to keep users on track and to teach them how to use the appropriate Access features in the same context in which they will use them in their own work. Users are guided through the process of creating a working database from the first step (defining the business problem it is intended to solve) through the last (deploying the application into an organization and providing ongoing support to users). Also included are case studies that provide practical guidelines for situations Access users might find themselves in.
