mod_perl 2 User's Guide Stas Bekman, Jim Brandt

mod_perl 2, the next generation of the Apache Perl module, gives you full access to the Apache 2 internals via the Perl programming language, just as mod_perl 1 gave you access to Apache 1. New features in Apache and Perl make mod_perl 2 even more powerful and useful than before, allowing you to quickly write and deploy fast, robust web applications. As with any major upgrade, there are new features and key changes to mod_perl from the 1.x generation. The mod_perl 2 User's Guide explains these key changes and demonstrates the tools you can use to port modules and migrate your existing code. Improvements in Apache 2 and mod_perl 2 include:

- * Multi-Processing Model modules (MPMs) allow for process-based and thread-based processing models. The addition of thread support makes mod_perl viable on Win32 and introduces the potential for improved performance on other platforms.
- * Protocol Modules give Apache and mod_perl the potential to serve any protocol, not just HTTP.
- * A mod_perl 2 interface to the Apache filtering API gives full access to input and output filters from Perl.
- * Support for creating custom Apache configuration directives in pure Perl, improved options for passing values to Perl modules from Apache, and greater access to the Apache configuration values.
- * The Apache::Test framework, useful for Perl and non-Perl Apache modules, allows you to develop fully-tested web applications to verify features and guard against regression.

* The ability to easily subclass ModPerl::Registry and override methods as needed. This guide provides installation and configuration guidelines, as well as details on all the ways you can plug into the Apache request cycle. You'll also learn how to write mod_perl handlers to deliver content with rapid response times and to leverage your existing CGI scripts with ModPerl::Registry. Whether you're new to mod_perl or migrating from mod_perl 1, the mod_perl 2 User's Guide will give you the information you need to get up and running on Apache 2 and mod_perl 2. Half of all proceeds from the sale of this book will be donated to The Perl Foundation.

From reader reviews:

Brian Dunlap:

Hey guys, do you really wants to finds a new book to study? May be the book with the subject mod_perl 2 User's Guide suitable to you? The particular book was written by popular writer in this era. The book untitled mod_perl 2 User's Guide is the one of several books in which everyone read now. That book was inspired many people in the world. When you read this guide you will enter the new age that you ever know ahead of. The author explained their idea in the simple way, so all of people can easily to know the core of this book. This book will give you a lots of information about this world now. To help you see the represented of the world with this book.

Eric Bass:

People live in this new moment of lifestyle always make an effort to and must have the time or they will get lot of stress from both way of life and work. So , if we ask do people have spare time, we will say absolutely indeed. People is human not only a robot. Then we consult again, what kind of activity do you have when the spare time coming to an individual of course your answer will unlimited right. Then do you ever try this one, reading publications. It can be your alternative inside spending your spare time, often the book you have read will be mod_perl 2 User's Guide.

Edward Reed:

As a pupil exactly feel bored to be able to reading. If their teacher questioned them to go to the library or even make summary for some publication, they are complained. Just little students that has reading's soul or real their pastime. They just do what the professor want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that studying is not important, boring as well as can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this mod_perl 2 User's Guide can make you truly feel more interested to read.

Homer Holmes:

Some people said that they feel fed up when they reading a book. They are directly felt that when they get a half portions of the book. You can choose the actual book mod_perl 2 User's Guide to make your reading is interesting. Your current skill of reading skill is developing when you including reading. Try to choose simple book to make you enjoy you just read it and mingle the impression about book and reading through especially. It is to be first opinion for you to like to open up a book and go through it. Beside that the publication mod_perl 2 User's Guide can to be your new friend when you're feel alone and confuse with what must you're doing of that time.
