## **The Essence and Value of Democracy** Hans Kelsen

Hans Kelsen is widely recognized as one of the most important legal theorists of the 20<sup>th</sup> century. Surprisingly, however, his political writings are not nearly as widely known as his legal theory, especially in the English-speaking world. This book fills the void between what is and isn't known about Hans Kelsen's political philosophy, and the ways that philosophy has and will continue to shape political debates inherent to democracy in the future. For the first time in English, this classic book - with an introduction by political theorist Nadia Urbinati - provides an overview of Kelsen's career and his contributions to 20th century political thought.
