Transcendental Aspects of Algebraic Cycles: Proceedings of the Grenoble Summer School, 2001 (London Mathematical Society Lecture Note Series)

Transcendental Aspects of Algebraic Cycles: Proceedings of the Grenoble Summer School, 2001 (London Mathematical Society Lecture Note Series)

This is a collection of lecture notes from the Summer School 'Cycles Algébriques; Aspects Transcendants, Grenoble 2001'. The topics range from introductory lectures on algebraic cycles to more advanced material. The advanced lectures are grouped under three headings: Lawson (co)homology, motives and motivic cohomology and Hodge theoretic invariants of cycles. Among the topics treated are: cycle spaces, Chow topology, morphic cohomology, Grothendieck motives, Chow-Künneth decompositions of the diagonal, motivic cohomology via higher Chow groups, the Hodge conjecture for certain fourfolds, an effective version of Nori's connectivity theorem, Beilinson's Hodge and Tate conjecture for open complete intersections. As the lectures were intended for non-specialists many examples have been included to illustrate the theory. As such this book will be ideal for graduate students or researchers seeking a modern introduction to the state-of-the-art theory in this subject.

From reader reviews:

Sandra Snyder:

Have you spare time for any day? What do you do when you have a lot more or little spare time? Yeah, you can choose the suitable activity regarding spend your time. Any person spent their very own spare time to take a wander, shopping, or went to typically the Mall. How about open or perhaps read a book entitled Transcendental Aspects of Algebraic Cycles: Proceedings of the Grenoble Summer School, 2001 (London Mathematical Society Lecture Note Series)? Maybe it is for being best activity for you. You know beside you can spend your time using your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have additional opinion?

Sharron Marty:

In this 21st century, people become competitive in each way. By being competitive right now, people have do something to make them survives, being in the middle of typically the crowded place and notice by simply surrounding. One thing that sometimes many people have underestimated the item for a while is reading. Yes, by reading a e-book your ability to survive increase then having chance to endure than other is high. In your case who want to start reading the book, we give you this specific Transcendental Aspects of Algebraic Cycles: Proceedings of the Grenoble Summer School, 2001 (London Mathematical Society Lecture Note Series) book as nice and daily reading book. Why, because this book is more than just a book.

Theresa Adams:

A lot of e-book has printed but it is unique. You can get it by internet on social media. You can choose the most beneficial book for you, science, comic, novel, or whatever by searching from it. It is referred to as of book Transcendental Aspects of Algebraic Cycles: Proceedings of the Grenoble Summer School, 2001 (London Mathematical Society Lecture Note Series). You can add your knowledge by it. Without departing the printed book, it could add your knowledge and make a person happier to read. It is most critical that, you must aware about book. It can bring you from one destination to other place.

Robert Hansen:

Reading a e-book make you to get more knowledge from the jawhorse. You can take knowledge and information from the book. Book is composed or printed or illustrated from each source this filled update of news. In this modern era like right now, many ways to get information are available for you actually. From media social including newspaper, magazines, science e-book, encyclopedia, reference book, book and comic. You can add your understanding by that book. Are you hip to spend your spare time to open your book? Or just searching for the Transcendental Aspects of Algebraic Cycles: Proceedings of the Grenoble Summer School, 2001 (London Mathematical Society Lecture Note Series) when you needed it?
