## **Australasian Nature Photography 08: ANZANG Eighth Collection (Australasian Nature Photography Series) South Australian Museum**

The bioregion of Australia, New Zealand, Antarctica and New Guinea possesses a unique natural heritage stretching back over 50 million years since the break-up of the great southern continent of Gondwanaland. The South Australian Museum focuses on enhancing a general knowledge of this extraordinary legacy by encouraging photography of the region's nature and wilderness, and promoting an annual competition to find the Nature Photographer of the Year.

Australasian Nature Photography: ANZANG Eighth Collection presents the finest photographs submitted to the competition. Each photograph is accompanied by technical information as well as anecdotes about how the picture was taken, which will stimulate yet further interest in the flora and fauna and their conservation in the region.
