Hijacking America: How the Secular and Religious Right Changed What Americans Think Susan George

George Bush leaves the White House in January 2009 and the United States goes back to “normal”, right? Wrong, argues Susan George in this fascinating, thorough and often chilling account of the decades-long transformation of American society and political culture. Using the four “Ms” – money, media, marketing, management—but above all with a keen sense of mission, the American secular and religious right has made its “long march through the institutions” and changed the way Americans think.

As the left went about its business in blissful ignorance, convinced that its policies, programmes and projects spoke for themselves and would always prevail; the right’s well-oiled machine of foundations, lobbies, think-tanks, publications, political cadres, lawyers and activist organisations slowly and strategically took over. A broad alliance of neo-liberals, neo-conservatives and the religious right successfully manufactured a new common sense, assaulted Enlightenment values and targeted the top of society where culture is created and legitimized, because they knew that ideas have consequences—and not just in the United States.

Hijacking America is that rarity of a book, a thoroughly researched page-turner. Clearly and gracefully written, it will enthrall the general reader while providing plenty of factual nourishment for the student of politics, culture, religion or international relations. And for all those who hope for a different America in the future, the first step is to hold the present one up to the light and understand how it got that way.

This book was represented so why is the world has grown up. The words styles that writer require to explain it is easy to understand. Often the writer made some analysis when he makes this book. This is why this book ideal all of you.

Annmarie Windham:

As a college student exactly feel bored to reading. If their teacher inquired them to go to the library or to make summary for some book, they are complained. Just minor students that has reading's internal or real their passion. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that reading is not important, boring as well as can't see colorful images on there. Yeah, it is being complicated. Book is very important for you. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this *Hijacking America: How the Secular and Religious Right Changed What Americans Think* can make you experience more interested to read.
