## Woodland Habitats (Habitat Guides) Mark Frater

Woodland habitats explores the history and ecology of British woodland and explains why they are such a valuable resource. It examines the wide range of different types of woodland habitats and the typical species that live within them. It offers a practical guide to all the key woodland issues including: \*conservation and management \* coppicing \* grazing in woodlands \* fire breaks \* recreation \* management for game \* pasture woodland and commercial forestry Woodland Habitats also includes a guide to notable sites with location maps and illustrations, suggested practical projects and a full glossary of terms.
