## **Norfolk and Western Railway** Nelson Harris

For a century, the Norfolk and Western Railway operated as one of the greatest transportation companies in the southeastern United States. From developing the coal fields of West Virginia to accommodating passengers aboard its famous Powhatan Arrow and Pocahontas lines, the N&W was the last major railroad to abandon the steam engine. The story of the N&W is a story about people—a story of the tens of thousands of people who worked in the shops and aboard the trains, sold the tickets and moved the freight, laid the track and managed corporate affairs. *Images of Rail: Norfolk and Western Railway* celebrates that heritage through the lens of some 200 archival photographs.

From images of the muscular Class J steam locomotive to the lone agent of the rural depot, these photographs have been harvested from the N&W's files at the Virginia Museum of Transportation. The archival material provides the reader the rare opportunity to rummage through the N&W's attic. See the engine crews at the turn of the last century, the shop gangs, freight agents, roundhouses, stations, and iron horses of a bygone age. With views of the rugged and, at times, dangerous days of railroading in the late 1800s to the rise of the N&W as a member of America's corporate elite, these pictures convey the railway's storied history.
