JAMA REVIEW!

"The editors are outstanding, experienced physicians with a great wealth of knowledge as well as practical proficiency in this field. The other contributors are also first-rate authors, and all have done a wonderful job in researching the subjects and writing them up in a way that is easy to read and understand. I firmly believe that *Pediatric Practice Sports Medicine* will quickly become the favorite of students, residents, and primary care clinicians. It will be embraced because of its ease of use and its valuable, practical contents. I am sure it will find its way to medical libraries throughout the nation or world and to most offices for primary care clinicians. I would recommend this book for anyone dealing with pediatric and adolescent patients, even if that interaction takes place only a few times per year. I think that this will be a must-have reference for pediatricians, family practitioners, student health clinicians, pediatric and family nurse practitioners, and physician assistants and anyone working with children and adolescents."--*Journal of the American Medical Association*
