## REVIEWS

...provides an interesting view into a lesser known chapter in aviation history. The text and captions are well translated into English thanks to Radu Brinzan, alleviating the need to bone up on your foreign language reading skills. A quick search of the wild world web shows that there are plenty of Bf 109E and Bf 109G decals in Romanian markings, so re-creating any of the featured aircraft should be of no issue. My thanks to Mushroom Model Publications and IPMS/USA for the chance to review this great book. Highly recommended!
