**VAMPIRE : My Life as a teenage vampire (Night Life)** Amy Mah

Today's world is difficult for everyone, especially teenagers. They face the stresses of school, deciding whom to date, and the biggie of sex, just to name a few. Imagine all of those things ten times worse, and you might get an idea of what it's like being a living, breathing teenage vampire. At last, the world can read about the life of a girl with good teeth, her problems with strong sunlight that gave her spots, and the sunblock that made her hair go yucky and produced more spots. Yes, sunlight was dangerous, as she could be the first teenager in history to die from terminal acne! In her everyday life, older vampires expected her to walk about at night in the traditional female uniform, a see-through, 18th-century nightdress, without undies! Well, this female vampire knew why the cold winds blowing along the corridors were called, "male winds," so she wore her see-through nightdress over jeans and a very thick jumper. To be sure that people would still know she was a vampire, the jumper had a very large, pink bat on it. And as to guys, well, it was normal for a girl to dream about guys; she just wished the dreams could have involved chocolates and holding hands, not leaping out at someone, ripping off his shirt, and demanding to know what blood type he was (at least not on the first date).

This is not your typical vampire story where vampires are jumping in bed with humans or are entangled with werewolves for one reason or another. This is the story of a teenage vampire who is just trying to survive in her day to day existence. It is humorous and will make you laugh out loud when Amy is just being her own unique self.

She has a way with words that is like no other. Amy is so outrageous that you can't help fall in love with her. I'm sure she would have something to say about that... No matter! The book is a delight and if you are into the strange and unusual, you must get your copy and see for yourself. You better get a copy unless you want to hear from the author. She has her own version of bending you to her will. In all seriousness, get your copy, it is a great book.
