**Evidence-Based Emergency ENT Care** Andrew Lau, Thomas Jacques, Sankalap Tandon, Tristram Lesser  
Written by the team behind the educational website ENTSHO.COM, this handy reference on common ENT emergencies is a must-read for anyone involved in the management of ENT patients. Portable, inexpensive and concise, the authors cover conditions from Bell's palsy through to tonsillitis. There is an updated post-operative section with details on operations and possible complications. Uniquely, the emphasis is on the strength of the medical evidence, and stratified recommendations come with a brief summary of relevant studies. This book complements the more pared-down style of ENTSHO.COM perfectly. This is an indispensable text for junior doctors on call for ENT, those working in the community, and Emergency Department doctors and nurses.
