## Tainos, Aztecs, Mayas, and Incas: A Timeless Tapestry Vince Hodgins

"The true story of the discovery, settlement, and development of Hispanic America, the dreams and strategies of the enigmatic mariner of obscure origin who believed that he could reach Cipango and the lands of the Great Khan described by Marco Polo two hundred years earlier, by sailing west rather than east; his voyages of discovery, and the native people he and his successors encountered, their spectacular buildings, religious rituals, and savage cannibalism. Large-scale immigration from Spain, Christianity and the role of the friars, and the rapid emergence of a new racial mixture of indigenous and European blood, are covered, as are social and economic development, the political structures necessary for the profitable administration and control of an empire three thousand miles away, until the winds of rebellion and independence born of the French Revolution blew-in a new world order which many non-Hispanics today erroneously call Latin America."
