This practical book provides everything you need to know about the Extensible Messaging and Presence Protocol (XMPP). This open technology for real-time communication is used in many diverse applications such as instant messaging, Voice over IP, real-time collaboration, social networking, microblogging, lightweight middleware, cloud computing, and more.

XMPP: The Definitive Guide walks you through the thought processes and design decisions involved in building a complete XMPP-enabled application, and adding real-time interfaces to existing applications. You'll not only learn simple yet powerful XMPP tools, but you'll also discover, through real-world developer stories, how common XMPP "building blocks" can help solve particular classes of problems.

With this book, you will:

- Learn the basics of XMPP technologies, including architectural issues, addressing, and communication primitives
- Understand the terminology of XMPP and learn about the wealth of XMPP servers, clients, and code libraries
- Become familiar with the XMPP concepts and services you need to solve common problems
- Construct a complete business application or real-time service with XMPP

Every day, more software developers and service providers are using XMPP for real-time applications, and with the help of *XMPP: The Definitive Guide*, you can, too.

From reader reviews:

Carmen Flood:

Have you spare time for the day? What do you do when you have far more or little spare time? Yes, you can choose the suitable activity regarding spend your time. Any person spent their spare time to take a move, shopping, or went to the Mall. How about open or read a book titled XMPP: The Definitive Guide: Building Real-Time Applications with Jabber Technologies? Maybe it is for being best activity for you. You recognize beside you can spend your time along with your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have other opinion?

Diane McCarthy:

Do you considered one of people who can't read pleasant if the sentence chained within the straightway, hold on guys this kind of aren't like that. This XMPP: The Definitive Guide: Building Real-Time Applications with Jabber Technologies book is readable by simply you who hate the straight word style. You will find the information here are arrange for enjoyable studying experience without leaving even decrease the knowledge that want to offer to you. The writer connected with XMPP: The Definitive Guide: Building Real-Time Applications with Jabber Technologies content conveys thinking easily to understand by lots of people. The printed and e-book are not different in the written content but it just different by means of it. So , do you continue to thinking XMPP: The Definitive Guide: Building Real-Time Applications with Jabber Technologies is not loveable to be your top listing reading book?

Steven Burley:

XMPP: The Definitive Guide: Building Real-Time Applications with Jabber Technologies can be one of your beginning books that are good idea. All of us recommend that straight away because this guide has good vocabulary that can increase your knowledge in vocab, easy to understand, bit entertaining but delivering the information. The article author giving his/her effort to get every word into pleasure arrangement in writing XMPP: The Definitive Guide: Building Real-Time Applications with Jabber Technologies yet doesn't forget the main place, giving the reader the hottest in addition to based confirm resource details that maybe you can be one among it. This great information could drawn you into brand new stage of crucial imagining.

Houston Estes:

As we know that book is very important thing to add our know-how for everything. By a publication we can know everything we would like. A book is a group of written, printed, illustrated or blank sheet. Every year had been exactly added. This book XMPP: The Definitive Guide: Building Real-Time Applications with Jabber Technologies was filled with regards to science. Spend your free time to add your knowledge about your technology competence. Some people has different feel when they reading some sort of book. If you know how big advantage of a book, you can feel enjoy to read a reserve. In the modern era like now, many

ways to get book that you simply wanted.
