Capitalism's Last Stand?

Walden Bello

Capitalism's Last Stand? Walden Bello

In this eye-opening and often scathing book, Walden Bello provides a forensic dissection of contemporary capitalism's multiple crises. Trenchant but constructive, Bello's analysis of the collapse of the global real economy, covering such issues as the Wall Street meltdown, the disintegration of the Greek economy, and the rise of China, emphasizes the ever more pressing need to engage in a radical process of deglobalization towards a decentralized, pluralistic world system. Only then will we be able to construct a fairer and more equitable society. A stirring call to arms for all those interested in global economic justice.
