How do historical and literary details contribute to a coherent theological witness to Jesus in the Gospel of John? A leading British evangelical New Testament scholar answers that question with studies on themes from messianism to monotheism, symbolic actions from foot-washing to fish-catching, literary contexts from Qumran to the Hellenistic historians, and figures from Nicodemus to "the beloved disciple" to Papias. Originally published in various journals and collections, these essays are now available for the first time in one affordable volume with a substantial new introduction that ties them all together. A must-have for serious students of the Fourth Gospel.
