## **Women of the European Union: The Politics of Work and Daily Life (Routledge International Studies of Women and Place)**

*Women of the European Union* challenges gender-blind assessments of the economic and social aspects of the European Union policies to examine the real implications of Union for the diversity of women in the Member States.

The authors also analyze how women's work and daily lives are shaped by local and national policies, by local and global economic conditions, and by diverse and changing cultural values.

Detailed contemporary case studies explore how place comes together with class, life stage, sexuality and ethnicity to affect the way in which women are constrained and how they develop strategies to manage their lives.
